## **ZEISS Webinar: Single Cell Airway Biology at the Nanoscale**

**Date:** 6th November 2025

**Speakers:** Dr Vito Mennella & Dr Debora Olivier

Join our webinar to explore how integrating multimodal imaging is enhancing understanding of airway epithelial structure and function.

### **Insights on:**

- Super-resolution imaging in motile cilia
- Fluorescence microscopy contribution to rare diseases diagnosis
- Airway epithelium multimodal imaging approaches
- AI-driven analysis

There will also be a ZEISS expert on hand to answer your super-resolution questions!
